Commissioner's Statement Regarding Blueprint School's Network

"I appreciate all of Blueprint's efforts in Massachusetts, including at the Dever. In a school with a history of low academic results, Blueprint achieved improvements in Dever's culture and climate and was persistent in its work to serve all students. In addition, Blueprint has been an effective improvement partner at English High School and the E. Greenwood School in Boston, as well as at the Bentley School in Salem."

- Massachusetts Elementary and Secondary Education Commissioner Mitchell Chester
